Pepper of the university of London will attend the exhumation on behalf of Scotland

A suit charging conspiracy against the backers of George Hollamby Druce in his fight for the titles and estate of the Duke of Portland is now threatened as a result of the litigation. This course, it is said, has been decided on by the defendant's counsel.

It is understood that Herbert Druce, who has fought against the proposition to open his father's grave in connection with the present suit, will gladly agree to having the coffin exhumed and its centents examined as a basis for contempt and criminal proceedings against its nephew's backers.

The London authorities are still conidering the advisability of asking for the extradition of Robert Caldwell, who suddenly left London when his testi-mony was repudlated. One other wit-ness, it is said, will be prosecuted on

BURLINGTON BONE AND MEAT MEAL FOR PIGS-THE CREAT FATTENER

The Guarantee Analysis of BURLINGTON BONE AND MEAT MEAL is as follows: Protein, 40% to 50%; Phosphates, 10% to 12%; In a careful experiment conducted by the IOWA EXPERIMENT

STATI N with various foods in that great hog raising State, it was demonstrated. First, That in the fattening of young hogs, a ration containing more Protein and Ash than a corn ration gave better results than a sole corn ration. Second, That a ration consisting of five parts corn and one part Bone and Meal Meal yielded over 34% greater profits than a ration of corn alone. As a feeding material for pigs, Bone and Meat Meat offers decided advan ages. It contains a high percentage of Protein, an important fieal forming element, and an amount of Phosphoric Acid that materially excels that found in grain or by-products of mills. The Phosphoric Acid for pigs is useful in building up Bone structure, an important feature with our pigs of to-day, while the Protein has a value universally recognized by feeders.
